My search for happiness and spiritual freedom lead me to the Avatar course and my love of people lead me to become a licensed Avatar Master.

As a seeker I encountered many wise concepts from great teachers & great works: His Holiness The Dalai Lama, Dr. David Hawkins, The Secret, A New Earth, The Four Agreements, What the Bleep Do We Know, Deepak Chopra & many more. I was so ready for Avatar an experiential course where I developed powerful skills to use in daily living. I now **feel** freedom to deliberately choose what I want to experience. The search is over.

As an Avatar Master coaching people allows me to deeply connect with and share in the awakening of others increasing our collective level of consciousness.

If you would like to let go of your personal limitations and be free to create the joyful life that **You** want, it would be an incredible privilege to work with you.

Avatar was the ultimate gift to myself and now I'd love to share that gift with you.  
I invite you to contact me now.
